Grenfell is a campus with a distinct view. Nestled amid the stunning natural beauty of western Newfoundland, we’re close to nature, and far from ordinary.

Small yet mighty, Grenfell is a place to ask bold questions, to aspire, to express fully, to test theories, make discoveries, and meet like-minded thinkers and doers. Our campus is a tight knit, diverse community brought together in an exceptional place by a common thirst for learning.

Professors and students from around the globe are drawn to our magnetic spirit of adventure and curiosity. At Grenfell Campus, no matter where you come from, you’ll find people who appreciate your unique point of view.

THE VIEW IS YOURS TO EXPERIENCE.

MEMORIAL’S MULTI-CAMPUS SYSTEM

Memorial offers 100+ degree programs to a student population of almost 19,000. You can expand your horizons at any one of our five campuses.

1. GRENfell CAMPUS  www.grenfell.mun.ca

Grenfell Campus in Corner Brook is a small, interdisciplinary campus offering undergraduate programs in arts, sciences, business, fine arts, nursing, and environment and sustainability, and graduate programs in arts, science and fine arts. Corner Brook has all the amenities of a larger city but with the charm of a small town. Theatres, galleries, restaurants, fitness centres, walking/biking trails and shopping malls are all within walking distance of campus. We are proud that the Ocean Station, a marine ecology research and teaching centre with a public aquarium that is located in Gros Morne National Park, is part of Grenfell Campus.

2. ST. JOHN’S CAMPUS  www.mun.ca/undergrad

St. John’s Campus is located in the heart of Newfoundland and Labrador’s capital city, and is home to roughly 15,000 students who live and learn in a diverse and cosmopolitan environment. Whether it’s shopping on Water Street, enjoying the music on George Street, or hiking up to historic Signal Hill, there’s rarely a dull moment.

3. MARINE INSTITUTE  www.marinemun.ca

Marine Institute, our second campus in St. John’s, is a world-leading institute for ocean-related career education and research. A cutting-edge education from the Marine Institute is one of the most affordable in Canada and gives you credentials that are recognized around the globe.

4. SIGNAL HILL CAMPUS  www.mun.ca/signalhill

Memorial’s newest location, Signal Hill Campus, is situated in the historic region of St. John’s. With an initial focus on public engagement and innovation, the tenants, programming and partnerships based here will help address 21st century issues by connecting the expertise and ideas of Memorial University students, faculty, staff and retirees, and the people and organizations of Newfoundland and Labrador.

5. HARLOW CAMPUS  www.mun.ca/harlow

Harlow Campus in England gives students and faculty a chance to study and teach abroad, creating unique learning and teaching experiences.
ST. JOHN’S CAMPUS

The majority of St. John’s programs can be started at Grenfell Campus.

Bachelor of Arts
- anthropology
- archaeology
- classics
- communication studies
- computer science
- criminology
- economics
- English (great drama)
- folklore
- French
- gender studies
- geography
- German
- history
- law and society
- linguistics
- medieval studies
- philosophy
- political science (Canadian government & global studies)
- psychology
- pure mathematics
- religious studies
- Russian
- sociology
- Spanish
- statistics

International Bachelor of Arts
- anthropology
- archaeology
- classics
- communication studies
- economics
- English
- folklore
- French
- gender studies
- geography
- German
- history
- law and society
- linguistics
- medieval studies
- philosophy
- political science
- psychology
- pure mathematics
- religious studies
- Russian
- sociology
- Spanish
- statistics

Bachelor of Business Administration

Bachelor of Commerce (Co-operative)

International Bachelor of Business Administration
- Bachelor of Music

Bachelor of Nursing

Bachelor of Physical Education

Bachelor of Recreation

Bachelor of Science
- applied mathematics
- behavioural neuroscience
- biochemistry
- biology
- applied ecology and conservation
- aquatic life
- biological tools and techniques
- biology for health professions
- comparative biology
- evolutionary biology
- molecular, microbial and cell biology
- chemistry (general, biological, computational)
- computer science (general, smart systems, software engineering, visual computing and games)
- earth sciences
- economics
- geography
- nutrition
- ocean sciences (general, environmental systems)
- physics (general, environmental, oceanic)
- psychology
- pure mathematics
- statistics
- diverse joint/interdisciplinary options, including marine biology

Bachelor of Social Work

Dean of Medicine

Doctor of Pharmacy

For program information on Graduate Studies visit www.mun.ca/becomegraduate.

Grenfell Campus Arts and Science Building

MARINE INSTITUTE

Diploma of Technology
- marine engineering
- marine engineering systems
- marine electronics

Diploma of Technology/Bachelor of Technology
- marine environmental technology
- ocean mapping
- underwater vehicles

Technician Diploma
- remotely operated vehicles (ROV) operator

Technical Certificate
- bridge watch
- fire rescue
- marine diesel mechanics

Bachelor of Maritime Studies
- maritime management
- safety management

Bachelor of Technology
- engineering and applied science technology
- health science technology

Advanced Diploma
- feed safety
- sustainable aquaculture
- water quality

null
Home to more than 50% of our students, the School of Arts and Social Science is all about diversity.

SCHOOL OF ARTS AND SOCIAL SCIENCE

Offering a variety of courses that demonstrate a wide range of teaching practices, the school prides itself on innovative approaches to traditional studies. You will focus on understanding and analyzing human cultural activity and behaviour, learning our history and our stories, and ways of thinking and being to find creative approaches to our future.

ENTREPRENEURSHIP AND INNOVATION

Have a business idea? Drop in to Navigate. We can help bring your startup business to life by offering the following services:

- Entrepreneurship Centre: energetic space for idea generation, networking, learning and business planning for early stage entrepreneurs.
- Business Incubation: dynamic co-working space for entrepreneurs to take their business to the next level.
- Makerspace: fully-equipped collaborative workspace for creative design, proof of concept and prototype development.

FACILITY RESEARCH EXAMPLES

Our research is relevant, diverse and interdisciplinary.

- Impacts of cyberbullying
- Social justice
- Ethics in entrepreneurship
- Indigenous approaches to colonialism
- Role of women in the Great War
BUSINESS ADMINISTRATION  

Our program explores the core areas of business, including marketing, accounting, finance, human resources and strategy. All of our courses support the development of employability skills, and many courses involve experiential learning components. You can engage in one of our student business ventures, participate in various business-related events throughout the year, or give your business idea, from the business plan to prototype development at the Entrepreneurship Centre and Makerspace located on campus.

CAREERS

accountant :: entrepreneur :: lawyer :: HR specialist marketing manager :: financial advisor

ENGLISH

If you are inspired by literature, the English program at Grenfell gives you the tools to engage, analyze and appreciate great works. Explore literature from 1,000 years ago to right now in forms ranging from epic to the graphic novel, British classics to Indigenous voices, and Pride to forbidden books. Exposure to different worldviews through literature allows you to analyze culture, world events, and your own daily encounters in a new way.

Get involved in the Paper Mill Press, a publication written, edited and published by students from all disciplines.

CAREERS

teacher :: editor :: journalist :: author :: copywriter public relations professional

HISTORICAL STUDIES

History is the living, breathing story of humankind and provides great insight into how the past has influenced our contemporary world. In addition to acquiring writing, reading, and analytical skills, you will explore the historical context, analysis, and interpretation of major events and developments, social and cultural conditions and beliefs. Embedded in this study of history are the often-gardened lives of the famous and the marginal, the rich and the poor, and all those in between who have shaped them.

CAREERS

architect :: librarian :: museum director :: lawyer :: journalist teacher :: civil servant
Psychology seeks to understand how we think, feel, and act. Through scientific exploration and application, this program will provide you with a deeper understanding of the individual and the interactions between individuals. Completing a degree in psychology will help develop high-level conceptual thinking and strong analytical capabilities. With over 30 courses ranging from personality to neuroscience, the psychology program at Grenfell will allow you to explore the diversity of the discipline.

**Social/Cultural Studies**

This program utilizes anthropology, ethnography, folklore and sociology to examine the rituals, norms, beliefs, conflicts, and traditions that underpin culture and society. You will use a wide range of approaches including hands-on fieldwork, qualitative and quantitative data analysis, and contemporary theoretical approaches. By studying present and past cultural practices, and social and cultural shifts, you will engage critically with important issues such as medical systems, the influences of mass media, global issues and trends, and the formation of group and personal identities.

**Careers**

- counselling
- educational psychology
- medicine
- social work
- speech/language pathology
- art therapy
- education

**Multidisciplinary Humanities**

Multidisciplinary humanities is a discipline that tries to understand the story of people in an integrated way, exploring where we have been and how that influences our path forward. You will look at the people that influence others, and delve into minds of the greatest ancient, modern and indigenous thinkers.

**Careers**

- architect
- organizational director
- policy analyst
- research assistant
- teaching
- community development
- human justice advocacy
- criminology
- cultural tourism
- social work
- policing
- museum & archives
The creative work of our students, faculty, staff and alumni is vital to sustaining the rich cultural fabric of the province.

SCHOOL OF FINE ARTS

We are the cornerstone of creativity on campus, contributing to the vibrancy of Grenfell and the city. We have the distinction of offering the only degree in visual arts and theatre in the province. Our graduates have gone on to find thriving careers in the worlds of visual and performing arts, theatre, film and television. Our faculty are professional artists working in a variety of genres and media that demonstrate both their passion and expertise.

FACTS

Facilities
- art gallery
- theatre
- printshop
- paint studio
- sculpture shop
- photography studio
- time-based studio
- rehearsal hall
- carpentry and building facilities
- wardrobe and prop areas

Past shows and exhibitions
- Daedalus/Morgana - Alice in Wonderland
- Curving Walk - Cabaret
- Contemporary Arts Festival

35 COUNTRIES ARE REPRESENTED AT GRENFELL CAMPUS
VISUAL ARTS BA (Hons)
greenland.col/uvu.ac

The visual arts program includes courses in drawing, painting, photography, printmaking, sculpture, textiles/fibre art, new media and digital imaging, time-based practice, art history, and visual culture. Health and safety components in studio courses as well as a comprehensive understanding of techniques and materials give you a solid foundation in visual art studio practices. You will make self-directed work and learn from visual arts faculty and technicians who are practicing artists. In your graduating exhibition you will showcase your independent art production at the Granfell Art Gallery.

IT’S COMPETITIVE. In addition to the Memorial University general application, you must submit a portfolio of your artwork in digital or hard copy format. Deadline: March 1, 2022.

STUDY IN ENGLAND: Choose to spend 8 weeks at Memorial University’s Harlow Campus in the U.K., where you will frequent London, visit cultural sites like Stonehenge and meet working artists.

CAREERS:
artist :: architect :: art therapist :: arts administrator :: animator
cleric planner :: curator :: gallery owner

THEATRE BA (Hons)
greenland.col/sciarttheatre

Mastery of acting or technical theatre takes commitment, practice and specialized instruction. Our faculty and staff guide you, push your boundaries and hone your craft, preparing you for full-scale professional productions. The acting stream develops skills in scene study, voice, speech, movement, acting techniques and professional practice. The technical theatre production stream covers lighting, sound, wardrobe, props, carpentry, drafting, scenic painting and stage management.

You’ll study at our campus in Harlow, U.K., matching plays and musicals in London’s West End and training with professional actors and technicians that work there.

ADMISSION IS COMPETITIVE: You’ll be required to audition for acting, or hire an interview for technical theatre production. Deadline: March 31, 2022.

STUDY IN ENGLAND: Spend 8 weeks at Memorial University’s Harlow Campus in the U.K., where you will see plays and musicals in London’s famous West End and Stratford-Upon-Avon and train with professional actors working in the London theatre scene.

CAREERS:
actor :: stage manager :: teacher :: theatre technician :: director
The School of Science and the Environment is home to expertise in both natural science and social science and has many interdisciplinary programs.

FACULTY RESEARCH EXAMPLES

Our research is relevant, diverse and interdisciplinary.

- Game theory
- Diversified fisheries
- Medicine: qualities of lichen
- Botany: ecology
- Food security
- Optimal soil conditions for crops
- Subatomic physics

There are many opportunities for student research, whether through independent research and projects, or in conjunction with your professor. You may find yourself in a lab, classroom, in the hothouse, or in the forested area near campus, or nearby Gross Morne National Park, all while being led by experts in their respective fields.

The discipline of biology, chemistry, economics, earth science, engineering, history, geography and political science are also included in this school. In addition, three important research facilities are connected to the school and the Environmental Policy Institute (EPI), the Boreal Ecosystem Research Initiative (BERI) and the Grenfell Observatory. The school’s staff are actively engaged in a number of different scholarly areas, from pure research in mathematics and physics to applied research on environmental issues that incorporates everything from molecular biology approaches to the study of socio-ecological systems. Other areas include boreal ecosystems, agriculture, soil science, environmental microbiology and food security.
COMPUTATIONAL MATHEMATICS B.Sc.

greif@lmu.de/computational_mathematics

Computational mathematics uses algorithms, calculations and logical reasoning to solve problems. This program challenges you to attack problems with mathematical rigor. You will take courses in differential equations, numerical analysis, applied graph theory, statistics, computer programming, algorithms and complexity, and more. Computational mathematics is the language of the future; computational and technological innovation means that the need for experts in mathematics is greater than ever.

CAREERS

software developer :: data scientist :: accountant
financial advisor :: meteorologist

ENVIRONMENT AND SUSTAINABILITY B.Sc.

greif@lmu.de/environment_sustainability

The program bridges scientific concerns about natural resources with policy development and management. As a resource management major you will learn the science behind the sustainable use of natural resources for both current and future generations from a social science perspective. You’ll have opportunities for unique experiences in real-life learning environments: live working side-by-side with planners at City Hall, or in the field with biologists at Memorial University’s Bona Bay Marine Station located in Gros Morne National Park.

CAREERS

policy analyst :: resource manager :: lobbyist
environmental consultant :: environmental educator

ENVIRONMENTAL SCIENCE B.Sc. OR B.Eng. (Home)

greif@lmu.de/environmental_science

Study the science behind environmental issues and the impact of our activities on the world around us. Examine organisms in freshwater and terrestrial environments, or the chemistry of the water and soil they live in, at field sites just a few minutes walk from the classroom. Investigate waste treatment and the impact of atmospheric pollutants on the environment using instrumental chemical analysis of your samples in our labs. Whether you specialize in chemistry or biology, you’ll be exposed to many different areas of research in applied and analytical contexts.

CAREERS

food inspector :: research scientist :: environmental engineer
agricultural consultant :: park warden

23
GENERAL SCIENCE B.Sc.
general@science.uco.ca

In the general science program you’ll get to choose three concentrations from biology, chemistry, earth systems, mathematics and physics. It’s a great choice as a preparation for professional programs in education or health, or if you have a passion for science in general. The multidisciplinary nature of the program means you’ll take a wide variety of courses, providing you with a diverse, academic foundation. During your degree you’ll have the opportunity to use modern laboratory facilities and study the night sky through one of Atlantic Canada’s largest astronomical telescopes.

CAREERS
- teacher
- lab instructor
- medical researcher
- science lawyer

PHYSICS B.Sc.
greatful@uco.ca/physics

Explore everything from the smallest subatomic particles to the farthest galaxies. Be trained in modern data analysis techniques and state-of-the-art numerical and symbolic computing methods. Physics students have access to the Greatful Observatory, housing one of the largest telescopes in Atlantic Canada, the only professional observatory in Newfoundland and Labrador. Right from the start, you will have the opportunity to work alongside world-class scientists designing and implementing your own research projects in subatomic physics, astrophysics or physics of the Earth.

CAREERS
- nuclear scientist
- astrophysicist
- geophysicist
- meteorologist
- teacher
- science journalist
Nursing is expected to be one of the top in-demand professions for the next 10 years.

PROGRAM OPTIONS

The undergraduate degree program at WRSN is delivered via two routes:

- Bachelor of Science in Nursing (Cooperation) - four-year option
- Bachelor of Science in Nursing (Cooperation) - accelerated three-year option

WESTERN REGIONAL SCHOOL OF NURSING

Western Regional School of Nursing (WRSN) is part of a collaborative bachelor of science in nursing program offered at three locations: WRSN in Corner Brook, as well as Memorial University’s Faculty of Nursing in the Centre for Nursing Studies in St. John’s.

Your learning will be diverse, combining classroom, laboratory, simulation and clinical practice. You’re a fully accredited program that will help you make ethical, critical and impactful evidence-based decisions in many different healthcare environments. As you gain the competencies you need to pursue a career in this important profession, you’ll be supported by a low teacher-student ratio in a nursing school recognized for excellence. Western Regional School of Nursing (WRSN) has received three consecutive seven-year accreditations from the Canadian Association of Schools of Nursing.

YOUR APPLICATION. In addition to meeting the general university admission requirements, you must also have completed high school biology and chemistry. Deadline: January 20, 2022.

CAREERS

acute care nurse | community health nurse | long term care nurse | educator | researcher | administrator
Your First Days on Campus

Move-in Day
Move-in day is one of the most exciting days on campus. You've applied to residence and now you're about to meet your floor mates! Load in your #1 (luggage) and provide some handouts to help you get settled in your private room. Whether you choose to live in a traditional style residence or an apartment, your residence assistant will be planning events to make sure you feel involved and connected while living here.

Get Oriented
Orientation is your official welcome to Grenfell. You'll learn about campus, meet your classmates, and most importantly—laugh, play, and celebrate the start of university. See you there! View our online photo gallery.
www.grenfell.mun.ca/orientation

Confused? Lost?
We've put everything you need together in Brightspace's online learning platform. We'll help you get ready for academics and life at a university student. Our Peer Mentor program will match you with a current student who can help you learn the ropes!

Visit the Library
Visit the Frema Hodgatt Library to get your student ID card. Here you'll find a look around our academic space that's much more than just books. It's also a great place to do research and study on our stationary bikes, standing desks, or bean bag chairs. www.library.mun.ca/grenfell

Meet Your Academic Advisor
Meet with your academic advisor to make sure you've made the right course choices, and to make any schedule changes if needed. Your advisor will also help ease your transition to university and help you understand your degree requirements and any resources you might need on campus.

Visit the ITS Help Desk
Here you'll get answers to all your IT questions like connecting to Wi-Fi, your Grenfell email address, and more. www.grenfell.mun.ca/its
GETTING SETTLED

SUSTAINABILITY

Our Residence Complex Building earned leadership in energy and environmental design (LEED) silver certification.

Living on campus is affordable, convenient, safe and most of all, fun. Your fees include a private bedroom, phone, wireless Internet, a kitchen and laundry facilities.

Whether you live in traditional residences or a chalet-style apartment, you will get your own bedroom and semi-private bathroom. Half of our students live on campus and are part of a close-knit residence community.

First-year students who apply by March 1 are guaranteed a room for the year (some conditions apply). Apply online at www.grenfell.mun.ca/housing and pay your $20 application fee.

TYPICAL HOUSING COSTS

- Traditional Residence $3,422
- Residence Complex $3,642
- Chalet Apartments (single) $3,706
- Chalet Apartments (family) $4,014
- Semester Meal Card $50 – $2,000

Meal cards are optional, with customizable amounts.
The kitchen is the heart of a household. It’s where people come together to laugh and share stories. At The Grove, our communal kitchen and dining halls keep that tradition alive.

Our dining hall is a great place to grab a bite, catch up on some coursework or just hang out and socialize with friends. The Grove’s menu includes traditional meals, salad and sandwich/wrap stations, pub foods and grocery items. There is a wide array of meals including vegetarian, vegan and gluten-free options. Meal plans are customized for each student, and operate on a declining balance system with top-ups available.

There are many restaurant options in the city, ranging from ethnic to traditional, fast food to formal dining. We’re also home to gastropubs, local restaurants and breweries and all within walking distance of campus. In downtown Comer-Fraser, enjoy outdoor vendors or grab a slice from several local pizza partners.

Enjoy cooking! Students living in residence have access to full kitchens and communal dining spaces. And Coleman’s at the Gardens grocery store provides a free shuttle service for students twice weekly.
YOUR SUPPORT NETWORK

generalservices@mun.ca/student-services

SERVICES FOR STUDENTS

We’ve got your back. From the day you walk through our doors until the day you cross the stage at convocation, we’re here for you. Your success is our success, and we’ve established a support network for you that will lead you down the path to graduation.

LEARNING CENTRE
generalservices@mun.ca/learning-centre

Come by the Learning Centre for help with writing and mathematics, supplemental instruction in high-risk courses, individual student tutors and study skills training— all at no cost to you. Our Accessibility and Education Support Centre (AESC) offers access to adaptive learning and accessible teaching and testing spaces for students with disabilities.

ACADEMIC ADVISING
generalservices@mun.ca/academic-advising

Academic advisors are here for every step of your educational journey. We’ll help you reach your full academic potential by helping to keep you on the right track throughout your degree. Meeting your advisor for individual sessions each year will help ensure your success in all aspects of your academic life. Advisors can assist you in navigating admission requirements, choosing your degree program, selecting courses and reaching your objectives while ensuring you are making informed decisions. Working closely with faculty and staff, our experienced advisors will provide you with tips, resources, tools and connections to help guide through realizing your educational goals.

HEALTH SERVICES
generalservices@mun.ca/health

Our health services on campus include wellness and medical services. If you need to talk to someone, our counsellors will meet with you one-on-one to deliver psychological services and support best practices in mental health.

FERRISS HODGETT LIBRARY
library.mun.ca/policies

The Ferriss Hodgett Library is much more than just a place to study or check out a book. While our collections in the visual arts, Newfoundland Kitor, Canadian literature, current affairs, and graphic novels are worth investigating, we are also here to provide you with information you need while giving you a comfortable place to study, write, or meet with other students.

We host board game nights, quiet hours, and therapy guinea pigs to ease exam stress. The Library is also here to serve the community including public access to resources and installations to events that showcase the research of our faculty, students and community members. We invite you to visit us, check out a book, attend one of our events or just drop by for a tour.

EARN MONEY
There are many jobs on campus available to students, and many students work at businesses close to campus.

35
University life is so much more than academics. There are clubs and societies for just about anything you can imagine.

Attend the Get Involved Grenfell Fair where you will learn about clubs and societies available to you. Maybe you’re interested in the Grenfell Dance Club or Jack.org, or maybe the Enactus team or Black Student Caucus are more your thing. You might also find yourself wandering around campus, organizing a conference, pitching a business idea or teaching children about science.

Grenfell Warriors volleyball and basketball teams compete in Atlantic Canada. Or you can head to the Civic Centre just across the street from campus for a run on the track, play a game of ice hockey or work out in the gym. Grenfell Campus is the future home of the Corner Brook Regional Recreation Centre, which will include a pool and fitness centre.

Have your say on campus. Be part of student government. The Grenfell Campus Student Union is passionate about issues that affect students and provides funding to student groups.

INVolvement on CAMPUs CAN HELP YOU MEET LIKE-MINDED PEOPLE, BUILD A STRONg SUPPORT NETWORK AND MAKE A DIFFERENCE.
Ireland, Japan, Australia, Korea, Barbados, Netherlands, United States

Our students find themselves studying all over the world through our Student Exchange Program.

There are hundreds of host schools available. And wherever you choose to study, you’ll pay Grenfell tuition and earn credit towards your degree.

Also, depending on offerings, you can take courses at our Harlow Campus in England or immerse yourself in the French language and culture through the Frideric Program in St. Pierre et Miquelon, French Islands off the south coast of Newfoundland.

LEARN MORE AT GRENFELL.MUN.CA/EXCHANGE
Indigenous students make up almost 15% of our student population, coming to Grenfell primarily from Métis, Inuit, and Innu communities. Indigenous students can get involved through the Indigenous Student Caucus, and through annual events such as the All Nations Powwow and Indigenous Peoples Week. Programs and services can be accessed through the Indigenous Resource Centre, or by visiting the Indigenous Student Lounge, which is a culturally safe space for students to practice smudging and Kalik lighting. In 2021, Grenfell Campus permanently raised the Métis flag on campus.

15% OF OUR STUDENT POPULATION ARE INDIGENOUS
Corner Brook is a city of about 20,000 people in picturesque western Newfoundland. Our seasons are marked with stunning autumn colours, snowy winters and mild, breezy summers.

We’re small but we have big personality. We’re a thriving theatre and visual arts community. You can take a stroll downtown for shopping, nightlife and dining. When you need to unwind, play in one of the city’s many sports clubs or check out the nearby civic centre which is home to hockey rinks, a fitness centre and walking trails. The beautiful Corner Brook Stream Trail offers close to 20 kms of paths throughout the city, ideal for hiking and snowshoeing, and mountain bikers will feel at home on our extensive bike trail network. Are you an adrenaline junkie? We’re a hub of adventure year round. There are areas to ski, snowboard, rock climb, bike, hike and alpine. And it’s all close to campus, ready for you to explore!

Marine Mountain is 1,700 feet of top-notch skiing and snowboarding just 15 minutes from campus. A 60 minute car ride away is Gros Morne National Park, a UNESCO World Heritage Site with marine inlets, rich forest and glacier-carved fjord, and is home to Bonne Bay Marine Station and Public Aquarium.
THREE STEPS TO APPLY

1. APPLY ONLINE
   www.guest.mun.ca/apply

   Apply now and indicate your campus of choice. The basic undergraduate application should include the following items:
   - Guest undergraduate application for admission/registration
   - Non-refundable application fee ($100 CAD) for Canadian high school students, $150 for Canadian students transferring from institutions outside of Newfoundland and Labrador, $110 for international students
   - Review the specific admission requirements for your region and check the relevant deadline for filing your application.

2. SUPPORTING DOCUMENTS
   www.guest.mun.ca/apply

   Identify and collect supporting documents. Be sure to check and see if your program of choice requires additional application materials. If you are a current high school student from Newfoundland and Labrador, your final grades will be sent automatically. Otherwise, you will need to have your official transcripts sent to our admissions office.

   Office of the Registrar
   Memorial University
   P.O. Box 4000
   St. John’s, NL, A1C 5S7

   RECOMMENDED APPLICATION DEADLINES:
   - March 1 – Full semester (Sept) documents due Aug. 20
   - Oct. 1 – Winter semester (Jan) documents due Dec. 20
   - Feb. 1 – Spring semester (May) documents due April 30
   * Competitive entry programs may have different deadlines.

3. HOUSING
   www.guest.mun.ca/housing

   Apply for on-campus housing. First-year undergraduate students are guaranteed a room on-campus if you apply by the March 1 deadline (some conditions apply). Apply online and pay the $25 application fee.
**FEES**

The fees chart is for two semesters of full-time undergraduate study (2021-2022).

*Canadian undergraduate students who have alternate health and/or dental coverage may opt out of the plan. Conditions and deadlines apply as noted in the university Calendar. All fees are subject to change.*

**International students can opt into prearranged international student health and dental plans; if conditions are met. Please consult the international student coordinator for more information.*

**Note:** For more details about scholarships, visit the university at the time of application. Pricing is subject to change.

Reading about us is one thing – visiting is another. See for yourself! We’ll arrange tours, meetings with faculty and opportunities to sit in on a class.

If you visit from May to August you can book accommodations located conveniently on campus.

GETTING HERE: We’re located in western Newfoundland, on Canada’s east coast. We’re 60 minutes from Deer Lake Regional Airport (YDF). You could also drive to North Sydney, N.S., where you can catch a Marine Atlantic ferry to Port aux Basques, N.L. After a two-and-a-half hour (271 km) drive, you’ll arrive in Corner Brook. Grenfell is about a seven-hour (670 km) drive from our capital city, home of Memorial’s St. John’s Campus, Signal Hill and the Marine Institute.
